

# UNITE STUDENTS: A HOME FOR SUCCESS

- Founded in 1991, Unite Students is the UK's largest provider of purpose-built student accommodation (PBSA).
- At Unite Students we're driven by a common purpose: to provide a Home for Success. For students, this means offering an affordable, safe and comfortable home with a range of value-added services that enables them to achieve more during their time at university.
- Students contribute positively to the communities in which they live, adding to the vibrancy and diversity of an area and boosting the local economy by around £6m a year for a scheme of this size.
- As the oldest and biggest PBSA in the UK we have a longstanding commitment to communities with an operating model that includes community engagement plans designed to support integration and wellbeing.
- Leapskills - Unite Students has spent the last three decades helping young people thrive in new situations and manage the 'leap' to university life. To date this has supported over 3000 young people to be better prepared to live independently.
- Unite Foundation - Unite Students launched the Unite Foundation, an independent charity, in 2012 and continues to be the main beneficiary. The scholarship takes care of students' accommodation and bills, covering up to 3 full years of study for students who do not have family support to help them through their time at University.
